

JET S90 Series Manual Chain Hoist — 2-Ton Capacity, 15ft. Lift, Model# S90-200-15

Item# 58824 ★★★★★ New — [Write a Review](#)

- Delivers reliability and longevity in light-industrial applications
- Weston-style double-ratchet pawl brake design to split a load to opposite sides of the ratchet gear for maximum load security
- Industrial-rated alloy steel hooks that rotate 360° for easy rigging and slowly stretch to indicate an overload
- Black oxide coating on Grade 80 load chain for increased durability
- Heat-treated load plates and case-hardened, corrosion-resistant internal parts to add longevity to hoist

Product Summary

This JET S90 Series Manual Chain Hoist delivers reliability and longevity in light-industrial applications. The Weston-style double-ratchet pawl brake design splits a load to opposite sides of the ratchet gear for maximum load security. Industrial-rated alloy steel hooks rotate 360° for easy rigging and slowly stretch to indicate an overload. Grade 80 load chain is coated with black oxide for increased durability. The heat-treated load plates and case-hardened, corrosion-resistant internal parts also add longevity to this hoist. The cast steel safety latches are more durable than stamped steel latches and resist bending. Needle bearings support the load sheave for efficiency and smooth operation. Impact-resistant all-steel construction delivers durability and protection. Compact, lightweight design works well in confined areas and low-headroom applications. This hoist complies with ANSI/ASME B30.16 and HST-2 standards and has been load-tested to 125% of capacity. Limited lifetime warranty.

What's Included

(1) Chain hoist

Features + Benefits

- Delivers reliability and longevity in light-industrial applications
- Weston-style double-ratchet pawl brake design to split a load to opposite sides of the ratchet gear for maximum load security
- Industrial-rated alloy steel hooks that rotate 360° for easy rigging and slowly stretch to indicate an overload
- Black oxide coating on Grade 80 load chain for increased durability
- Heat-treated load plates and case-hardened, corrosion-resistant internal parts to add longevity to hoist
- Bend-resistant cast steel safety latches for more durability than stamped steel latches
- Needle bearings to support the load sheave for efficiency and smooth operation
- Impact-resistant all-steel construction for durability and protection
- Compact, lightweight design ideal for use in confined areas and low-headroom applications
- Complies with ANSI/ASME B30.16 and HST-2 standards and load-tested to 125% of capacity
